this account of stalin s life begins with his early years the family breakup caused by the suspicion that the boy was the result of an adulterous affair the abuse by his father and the growth of the traumatized boy into criminal spy and finally one of the 20th century s political monsters

an animated adaptation of the story of the same title by maurice sendak in which a small boy makes a visit to the land of the wild things tells how he tames the

creatures and returns home for primary grades

the internationally distinguished contributors to this landmark volume represent a variety of approaches to the nazi and stalinist regimes these far reaching essays provide the raw materials towards a comparative analysis and offer the means to deepen and extend research in the field the first section highlights similarities and differences in the leadership cults at the heart of the dictatorships the second section moves to the war machines engaged in the titanic clash of the regimes between 1941 and 1945 a final section surveys the shifting interpretations of successor societies as they have faced up to the legacy of the past combined the essays presented here offer unique perspectives on the most violent and inhumane epoch in modern european history

kissinger defines diplomacy with an overview of his own interpretation of history and personal accounts of negotiations with world leaders

you have to read it volodymyr zelensky laurence rees brilliantly combines powerful eye witness testimony vivid narrative and compelling analysis in this superb account professor sir ian kershaw author of hitler hubris and hitler nemesis in this fascinating study of two monsters rees is extraordinarily perceptive and original antony beevor two tyrants each responsible for the death of millions this compelling book on hitler and stalin the culmination of thirty years work examines the two leaders during the second world war when germany and the soviet union fought the biggest and bloodiest war in history hitler s charismatic leadership may contrast with stalin s regimented rule by fear and his intransigence later in the war may contrast with stalin s change in behaviour in response to events but as bestselling historian laurence rees shows at a macro level both were prepared to create undreamt of suffering in hitler s case most infamously the holocaust in order to build the utopias they wanted using previously unpublished startling eyewitness testimony from soldiers civilians and those who knew both men personally laurence rees probably the only person alive who has met germans who worked for hitler and russians who worked for stalin challenges long held popular misconceptions about two of the most important figures in history this is a master work from one of our finest historians coming from one of the world s experts on the second world war this is an important and original and devastating account of hitler and stalin as dictators a must read professor robert service author of stalin a biography impressive well

paced and well informed with an eye for telling anecdotes and colourful character sketches rees decision to add personal stories to his narrative adds an important layer to our understanding of both the dictators themselves and their victims robert gerwarth the daily telegraph

reviews of significant fiction and nonfiction published in 1992 provides coverage for works that are likely to be of particular interest to the general reader that reflect the publishing trends of a given year and that will stand up to the test of time

challenging previous accounts megargee shatters the myth that german generals would have prevailed in world war ii if only hitler had not meddled in their affairs instead he observes that the military s strategic ideas were no better than hitler s and often were worse 20 photos

with the opening of russian and communist bloc archives dating from the soviet era there has been a significant increase of scholarly writings pertaining to joseph stalin widely considered to be among the most influential historical figures of the twentieth century stalin continues to be a source of intense study in the absence of a comprehensive compilation of periodical literature the need for joseph stalin an annotated bibliography of english language periodical literature to 2005 is conspicuous ranging from editorials and news reports to academic articles the more than 1 700 sources cited collectively cover the full range of his life the various aspects of his leadership and virtually all facets of the system and practices traditionally associated with his name the coverage in this bibliography extends beyond the person of stalin to include the subjects of stalinism the stalinist system the stalin phenomenon and those policies and practices of the communist party and soviet state associated with him this volume also provides a record of scholarly opinion on stalin and sheds light on the evolution and current state of stalinology an effort has been made to list only those articles in which stalin figures prominently but in some instances articles have been included which do not center on stalin but are worthy of listing for other reasons the book is divided into fourteen main sections general studies and overviews biographical information and psychological assessments the revolutionary movement october revolution and civil war rise to power politics economics society and social policy nationalism and nationality policy culture religion philosophy and theory foreign relations and international communism military affairs and de stalinization including a subject index of several hundred headings and

even greater number of subheadings this comprehensive annotated bibliography should be of benefit to those individuals who for the purpose of research or classroom

new from the longman companions to history series martin mccauley offers a comprehensive and up to date reference on every aspect of russian history and politics since 1914 which serves as an invaluable tool to those interested in russia a wealth of information is presented in an accessible reader friendly format with much of the material published for the first time materials included are a political chronology short essays defining key topics relating to economy society religion and culture with key topics covered i e agriculture health the press planned economy the russian orthodox church etc a guide to russian nationalities and territories including historical background a substantial section devoted to politics including extended definitions of political terms i e leninism komosol orgburo rada etc detailed accounts of the attempted coup of 1991 and the nine russian congresses of people s deputies 1990 1993 detailed information on foreign affairs and security an invaluable list of office holders and 80 concise biographies and much more

the use of terror has been a characteristic of russia from the days of the tsars during the great patriotic war soviet soldiers and citizens feared not only the germans but the secret police the agents of the nkvd waged a merciless campaign against their own people the full extent of this operation is told in this compelling study

in the first analysis of the start of the cold war from a soviet viewpoint caroline kennedy pipe draws on russian source material to reach some startling conclusions she challenges the prevailing orthodoxy of western historians to show how moscow saw the presence of us troops in europe in the 1940s and early 1950s as advantageous rather than as a check on soviet ambitions the author points to a complex web of concerns than fuelled moscow s actions and explores how the soviet leadership and stalin in particular responded to american policy she shows how the soviet experience of the united states and europe both before during and after the second world war led moscow to a policy that was not simply fuelled by anti americanism six chapters cover events from the wartime conferences of 1943 until the death of stalin a final chapter places the book in the context of the current debate over the causes of the cold war

it seemed that whenever mussolini acted on his own it was bad news for hitler indeed the fuhrer s relations with his axis partners were fraught with an almost total lack of coordination compared to the allies the coalition was hardly an alliance at all focusing on germany s military relations with italy romania hungary and finland richard dinardo unearths a wealth of information that reveals how the axis coalition largely undermined hitler s objectives from the eastern front to the balkans mediterranean and north africa dinardo argues that the axis military alliance was doomed from the beginning by a lack of common war aims the absence of a unified command structure and each nation s fundamental mistrust of the others germany was disinclined to make the kinds of compromises that successful wartime partnerships demanded and because hitler insisted on separate pacts with each nation italy and finland often found themselves conducting counterproductive parallel wars on their own dinardo s detailed assessments of ground naval and air operations reveal precisely why the axis allies were so dysfunctional as a collective force sometimes for seemingly mundane but vital reasons a shortage of interpreters for example his analysis covers coalition warfare at every level demonstrating that some military services were better at working with their allies than others while also pointing to rare successes such as rommel s effective coordination with italian forces in north africa in the end while some individual axis units fought with distinction if not on a par with the vaunted wehrmacht and helped germany achieve some of its military aims the coalition s overall military performance was riddled with disappointments breaking new ground dinardo s work enlarges our understanding of germany s defeat while at the same time offering a timely reminder of the challenges presented by coalition warfare

did the west win or did inherent flaws doom the soviet system from the start book jacket

for introductory courses in western civilization this text explains why western civilization is worth knowing about it takes a consistently topical approach stressing social and cultural themes in conjunction with the political narrative and incorporates significant discussion of peoples and civilizations outside the boundaries of the west written by a single author it is accompanied by rich visual images textual excerpts boxes timelines charts and maps all closely related to the narrative

since alexander ii ascended to the russian throne in 1855 and implemented a series of modernizing reforms including the emancipation of the serfs in 1861 russia has found itself in the throes of continuous upheaval caught between the autocratic traditions of empire and the dawn of the modern era as the advent of industrialization and two world wars thrust russia onto the global stage the ramifications of its tumultuous history have been felt throughout the western world this unique resource presents and evaluates ten of the most critical events in modern russian history from the pivotal years of 1855 1991 including the russian industrial revolution the fall of the monarchy the stalin era the cold war and the collapse of the soviet union in 1991 a full chapter is devoted to each event and each chapter includes a factual introduction to the event as well as an in depth interpretative essay exploring its underlying causes factors and effects coverage for each event also includes an annotated bibliography of works suitable for students and an illustration for each a glossary of terms a timeline of russian history from 1853 2004 a list of russian soviet rulers and a population chart serve as ready reference materials for students looking to understand this critical period in world history since alexander ii ascended to the russian throne in 1855 and implemented a series of modernizing reforms including the emancipation of the serfs in 1861 russia has found itself in the throes of continuous upheaval caught between the autocratic traditions of empire and the dawn of the modern era as the advent of industrialization and two world wars thrust russia onto the global stage the ramifications of its tumultuous history have been felt throughout the western world this unique resource presents and evaluates ten of the most critical events in modern russian history from the pivotal years of 1855 1991 including the russian industrial revolution the fall of the monarchy the stalin era the cold war and the collapse of the soviet union in 1991 a full chapter is devoted to each event and each chapter includes a factual introduction to the event as well as an in depth interpretative essay exploring its underlying causes factors and effects coverage for each event also includes an annotated bibliography of works suitable for students and an illustration for each a glossary of terms a timeline of russian history from 1853 2004 a list of russian soviet rulers and a population chart serve as ready reference materials for students looking to understand this critical period in world history

there is still a widespread assumption that the second world war was won in the

west when in fact the tide was first turned on the eastern front this book written by two internationally known experts on the subject argues that hitler s ostkrieg was the central event of the global conflict between the allies and the axis powers however this is much more than a traditional military political history it deals with nazi crimes and economic exploitation with the psychological war no less significantly this volume provides a guide to the extensive literature on the war in the east including largely unknown soviet writing on the subject indispensable for military historians but also for all scholars who approach this crucial period in world history from a socio economic or cultural perspective

This is likewise one of the factors by obtaining the soft documents of this **Hitler And Stalin Parallel Lives Alan Bullock** by online.
